BATTLE IN BAR ASSOCIATION WILL BE CLOSE SHRINER PROGRAM IS ANNOUNCED

Chinese Take Dutch Island

Rioters Loot and Burn Capital; Kill Government Officials

(Associated Press Cable.)
BATAVIA, Java, Feb. 4.—Breaking out suddenly in an apparently concerted plan of action, Chinese laborers and others have created a reign of terror on the island of Billiton, a Dutch possession, between Borneo and Sumatra. The rioting Chinese looted and burned the capital, killed the chief administrator, an official of the Dutch government, and several other officials and traders. They are in possession of the islands. This part of the Malay archipelago is infested with Chinese pirates, and the Dutch government, it is expected, will be forced to send war vessels to the scene to put down the uprising.

MEXICAN REBELS MAY GET JUAREZ

(Associated Press Cable.)
JUAREZ, Mex., Feb. 4.—The revolutionists have won a bloody fight for this part of the Mexican republic. Today the officials of the city, bearing a white flag, have gone to the camp of the rebels and will probably surrender the city. The streets have been ordered cleared of all crowds, and the business houses to keep closed until a settlement is made.

(Special Bulletin Cable.)
EL PASO, Tex., Feb. 4.—Late this afternoon the street cars to Juarez, across the river, were stopped and all Americans turned back at the bridge. Five Americans were arrested near a fortified cathedral in Juarez.

ARMENIANS MURDER PERSIAN MINISTER

(Associated Press Cable.)
TEHERAN, Persia, Feb. 4.—Sanied Dowlen, the Persian minister of finance, was today assassinated by two Armenians, who escaped after killing the official.

HAYTIAN REBELS SUCCEED

(Special Bulletin Cable.)
WASHINGTON, D. C., Feb. 4.—Haytian revolutionists have captured several towns.

MANILA 'QUAKES ARE SLOWLY DECREASING

(Associated Press Cable.)
MANILA, P. I., Feb. 4.—The earthquake shocks here are gradually decreasing. Up to date 913 have been recorded.

YELLOW FEVER CASES EXAGGERATED

(Associated Press Cable.)
NEW ORLEANS, La., Feb. 4.—There are but three cases of yellow fever on the U. S. gunboat Marietta, instead of nine as was reported yesterday.

ARCHBISHOP RYAN REPORTED BETTER

(Associated Press Cable.)
PHILADELPHIA, Feb. 4.—Archbishop Ryan, who has been seriously ill, is improving in health.

SPECIAL MEETING TO TALK OVER SCHOOLS

There will be a special meeting of the Territorial Teachers' Association, at the McKinley High School, on Thursday afternoon, February 9th, from 3-4 p. m., to discuss the needs of the schools as related to legislative action.
It is the most important meeting of the year.
The program includes:
1. "Public Interest and the Schools," Mr. Bowen.
2. "The Forward Movement of the Schools," Mr. Frank Damon.

Shriners Decide On Their Program

Adopt Itinerary For Big Excursion and Fix Principal Dates

Plans for the itinerary of the big Shriners' excursion from the mainland to Hawaii have been settled. The executive committee named by the local lodge met yesterday and adopted the itinerary submitted. The program may have additions later, but the dates have been definitely fixed as follows:
Wednesday, February 15.
Steamer Wilhelmina leaves San Francisco at noon with officers of Imperial Council, visiting Nobles and wives.
Tuesday, February 21.
Steamer arrives off port 7 a. m.; will be met by local Shriners; visitors escorted to hotels and rooms. Tuesday afternoon—Luncheon in honor of visitors at Waldorf.
Wednesday, February 22.
Floral Parade and Elks' Carnival. At midnight Shriners board Wilhelmina for trip to Hilo.
Thursday, February 23.
Shriners will arrive at Hilo at noon, leaving promptly for Volcano House, thence down to crater of Kilauea, where views of crater will be afforded. Ladies then return to Volcano House. Concluding sections of ceremonial session will be held on floor of crater, where novillates will walk the burning sands.
Friday, February 24.
Lunch at Volcano House; return to Hilo. Dinner at Hilo Hotel, and informal evening. Board steamer at midnight for return to Honolulu.
Saturday, February 25.
Arrive Honolulu about noon. Street parade at 2 p. m., followed immediately by ceremonial session in Hawaiian Opera House. Traditional banquet will be held at conclusion of ceremonial session, at Honolulu Seaside Hotel, 8:30 p. m. Visiting ladies meanwhile will be taken to Bishop Museum by ladies of Aloha Temple.
Monday, February 27.
Sightseeing in and around Honolulu, to plantations, Pearl Harbor, etc. A kind of go-as-you-please day.
Grand Shrine ball in evening at 9 o'clock, Honolulu Seaside Hotel.
Tuesday, February 28.
Visit to Aquarium, surf-riding, canoeing, swimming, at Waikiki beach. Private dinner parties and visits in evening.
Wednesday, March 1.
Steamer Wilhelmina sails for San Francisco. Grand farewell to visitors.
Tuesday, March 7.
Wilhelmina arrives San Francisco.

SUGAR EXPERTS NEAR SUCCESS

Important Experiments Point to Forward Steps in Industry.

Two remarkable series of experiments in progress by Director Charles F. Eckart of the Hawaiian Sugar Planters' Association experiment station, and his capable staff of assistants, are now apparently coming to a no less remarkable conclusion. The conclusion, unless signs fail, is to be successful, in which case the sugar industry not only of Hawaii but of other countries as well will be directly benefited.

One of these is a series of experiments with a parasitic enemy of the cane-borer. The other is a test of growing cane from seed and by the processes of selection and elimination producing cane superior to the present varieties of the islands.

Both of the experiments have been years in the process. It has been more than four years since Mr. Frederick Muir, assistant entomologist at the station, was sent to New Zealand to find a parasite for the destructive cane-borer. In the natural home of the parasite, it was argued, a parasite that would destroy it was sure to be found. This is a law of nature, and it held good.

The problem was not to find the parasite, but to bring it to Hawaii. The insect was hard to propagate and even harder to send from its home in the Antipodes to this Territory. But by the patient establishment of relay stations at various points, this difficulty was finally solved. To the solving, however, Mr. Muir devoted the most enthusiastic and intense endeavor, and his labor, it seems, was not to be fruitless.

Up at the experiment station the parasite has been propagated. That success is coming may be argued from the fact that the more nearly the artificial conditions have approached the natural ones, the more effectively have the parasites worked, and recently they proved deadly enemies of the cane-borer.

This experiment, however, is still (Continued on Page 7.)

KILAUEA BILL WELL RECEIVED

Secretary of Interior Thinks Well of Plan for National Park.

(By John E. Monk.)
WASHINGTON, D. C., Jan. 22.—Following is a statement given out by the Interior Department concerning a bill forwarded by Governor Frear to establish the Kilauea National Park on the island of Hawaii:

"Governor W. E. Frear of Hawaii has forwarded to the Secretary of the Interior a draft of a bill to establish the Kilauea National Park on the island of Hawaii. It is understood the measure will be introduced in Congress shortly by Delegate Kalamannole. It is drafted along lines of similar acts passed by Congress, more particularly those relating to the Yellowstone National Park.

"It is proposed to create a park to include the two large active volcanoes of Kilauea and Mokuawawe, the latter being at the summit of the high mountain Mauna Loa. The greater portion of the area, which aggregates about 56,000 acres, already is public land. It will be necessary to purchase some small privately-owned holdings, and the bill carries for this an appropriation of \$50,000.

"These active volcanoes are perhaps the most notable scenic wonder of the island Territory, and annually are visited by thousands of tourists. The proposed park would take in not merely the two volcanoes, but numerous interesting deep pit-craters; also sulphur banks, lava tree moulds and other volcanic forms, in addition to tree-fern forests, forests of trees, both large and small, of many varieties, some of which are very rare; and also the haunts of an unusually large number and variety of Hawaiian birds.

"The people of Hawaii have discussed the matter for some time and are heartily in favor of making this a national park. Under the proposed measure, it would be part of the park system under the jurisdiction of the Secretary of the Interior."

LEILEHUA WATER FIGHT TO GO OVER

(By John E. Monk)

WASHINGTON, Jan. 22.—The whole subject of the disposal of the waters of the military reservation of Waianae-Uka will probably go over until the next session of Congress as the result of the report of the Secretary of War on the Clarke bill granting these waters to John T. McCrosson and his associates. The Secretary in his report, first, holds that as between the offers made to the government and by the Waianae Water Company, that made by the McCrosson people is the most advantageous to the government; and second, that the rights of the government to waters there are extremely valuable and that he does not know just how valuable they are. He therefore recommends that action be deferred so that he may ascertain what the value is, and he asks that action on the Clarke bill be deferred until he is in receipt of full information.

The Waianae Water Company submitted a brief to the Secretary making a claim to water rights, claiming certain contractual rights were acquired by the law passed in February 1909. The Secretary cited authorities to show that no water rights were acquired under that bill.

The Secretary gave an extended hearing on the subject at Attorney's Blythe & Gray and Col. W. G. Hepburn, of this city, and E. M. Watson and F. E. Thompson of Honolulu and Frank Hogan of this city appeared for the McCrosson people.

ROOSEVELT TO SAN FRANCISCO

NEW YORK, Jan. 25.—In announcing his itinerary for a swing through the south and west, beginning March 8, Colonel Roosevelt stated tonight that he would make at least two speeches for Governor Johnson and the progressive cause.

"At Los Angeles I will speak for Governor Johnson," said Colonel Roosevelt. "He is a great friend of mine, and I gave him my promise to make one or two speeches in his great state."

The Call's correspondent understands from a reliable source that plans are being laid quietly for Colonel Roosevelt while in the far west to meet as many of the progressive Republican leaders as can be gotten together at the most convenient point, and this point, it is believed, will be San Francisco, where Colonel Roosevelt will remain 10 days.

It is to be held solely to aid the (Continued on Page 4.)

GEN. CHRISTMAS NOW HOLDS PUERTO CORTEZ

(Special Bulletin Cable.)
PUERTO CORTEZ, Honduras, Feb. 4.—General Lee Christmas, the American who is one of the revolutionary leaders, has occupied this city.

STRANDED SHIP SAFELY FLOATED

(Associated Press Cable.)
VICTORIA, B. C., Feb. 4.—The Norwegian steamship Titania, which went ashore yesterday, has been successfully floated and brought to a safe anchorage. The ship seems to have sustained no serious damage to her hull.

SUGAR
SAN FRANCISCO, Feb. 4.—Beets: 88 analysis, 99.11-41; parity, 2.90c. Premiums quotation, 5c. 1d.

BORN.
KIMBALL.—At Haleiwa, Feb. 4, 1911, to Mr. and Mrs. Clifford Kimball, a son.

Cooper Element Grows Stronger

Supporters Say He Has Majority of Bar For Vacancy On Supreme Bench

Developments today make it certain that the appointment of a successor to Chief Justice Hartwell will be fought out in the bar association—at least, if the bar association's endorsement counts with President Taft, as it is presumed to do.

Yesterday and this morning the supporters of Judge H. E. Cooper began to line up their forces. W. T. Rawlins is one of those active in behalf of Judge Cooper's candidacy, and it was reported that he has secured some very strong backing in the bar association. By this time, practically every member of the association has been approached either on behalf of Judge Cooper or Judge Hatch, with Federal Judge Robertson a strong possibility.

The Cooper element today claims a majority by a few votes in the bar association. The Republican legislative

committee is also with Judge Cooper. Acting on the request of a number of members, Lyle A. Dickey, secretary of the bar association, today issued a call for a meeting next Tuesday afternoon at 4 o'clock. At least fifty members are expected to be present. It is here that the rival elements will come to a show-down on the question of endorsement. Judge Cooper's supporters today declared that if the bar association's endorsement is to be the deciding factor, he is sure of appointment.

A. A. Wilder, who has called to Judge Hatch in Washington to ascertain if he will accept the position should it be offered him, up to 1 o'clock this afternoon had received no reply. It is believed that Judge Hatch will await the arrival in Washington of W. O. Smith, and that his acceptance or refusal will be received by Monday afternoon. The Republican legislative

HAWAII COUNTY DECIDES TO NAME COUNTY ENGINEER AND PUT ROADS INTO CONDITION

(Special Bulletin Cable.)
HILLO, Feb. 2.—The Board of Supervisors at the meeting this week finally passed a resolution providing for the employment of a county engineer, at a salary of \$250 a month, to hold his office for not less than one year, unless removed for cause. The resolution was virtually framed by Austin, but was introduced by Koonoon, the Home Rule member from Kona.

A strenuous debate followed the introduction of the resolution. Koonoon argued, while moving that it be adopted, that the roads were going from bad to worse, and the roads in Kona, for instance, needed the supervision of a competent engineer.

Beckley also spoke in favor of the proposition. All the other counties had them, and the time had come when Hawaii should have one also. In the past, large amounts of money had been wasted, sufficient to have paid for an engineer twice over.

Purdy moved to table the resolution, but the motion was lost on the following vote:

Ayes—Lyman, Purdy—2.

Noes—Koonoon, Kauhane, Beckley, Austin—4.

Purdy made a lengthy speech, arguing that the road supervisors could supervise the road work without the county incurring the expense of an engineer.

Koonoon argued that it would be better to make the appointment immediately, and to get the Attorney-General to draft a bill giving the county charge of the expenditure of the belt road appropriation. The Governor would probably assist to pass such a measure when the county had appointed an engineer.

A motion to adopt the resolution was then put and carried by the following vote:

Ayes—Austin, Beckley, Kauhane, Koonoon—4.

Noes—Lyman, Purdy—2.

U. S. OFFICERS MUST VACATE

It is estimated by the Department of Public Works that one year will be necessary to complete the reconstruction of the Judiciary building, for which purpose an appropriation is practically certain of being passed at the session of the Legislature this year.

During the period named the Judiciary and other departments now located in the building will be provided for temporarily in the Capitol and elsewhere. It is proposed to use the Throne Room of the Capitol as a temporary chamber for the sittings of the Territorial Supreme Court, the Senate chamber being used as a Circuit Court room.

The lower floor of the Judiciary building, over half of which is occupied by United States offices, is rented from month to month from the Territory, and a notice of thirty days is all that is required tooust the U. S. District Attorney, U. S. Marshal and U. S. Court

KONA TOBACCO LOOKING WELL

In a letter to W. R. Castle from Kona, Jared G. Smith says: "The total 1910 crop is now in the fermenting house. There are 171,591 pounds, which is about 6500 more than my estimate. The further we get into the crop the better it looks—sound, magnificent, leaf, and absolutely as fine as can be grown anywhere in the world, perhaps a little better than any other district can grow. The curing and grading work is well under way, sixty women now being employed."

The Kona Tobacco Company has great hopes in its present crop on account of the very fine work being done by Mr. Daniels and his son, the former being an expert whose work has shown that tobacco must be treated as carefully as silk or disaster will follow.

The difference between a luncheon and a lunch is, that the former is a function and the latter something to eat.
